OBJECTIVE

Results-driven C++ Developer with 2 years' experience in innovating DSLR camera systems. Proven in enhancing software features, contributing to complex projects, and collaborating seamlessly in cross-functional teams. Seeking a challenging role to leverage C++ expertise for cutting-edge projects and drive technological advancements in a dynamic work environment

PROFESSIONAL EXPERIENCE

Software Engineer | HCL

Client : Sony(Trinetra)

Technology : C++

Role : Developer

Key Achievements:

- Key contributor to the Trinetra project, enhancing camera features for DSLR models.
- Developed innovative functionalities (ISO, Cinebar) in C++.
- Collaborated on design and implementation with the development team.
- Conducted rigorous regression testing and identified bugs for product refinement.

Internship | Ajath InfoTech Pvt Ltd (2 Months)

Core Java | Android Developer

- Contributed to Apustrov App development (similar to Instagram) with layouts and functionalities.

PROJECT

E-commerce Website :- HTML | CSS | JavaScript | React.js

- Contributed to the creation of a robust e-commerce website, focusing on enhancing user engagement and streamlining the shopping experience.
- **E-commerce Link** :- <https://nimble-daifuku-abfb17.netlify.app/>

EDUCATION

B.Tech in Computer Science and Engineering | AKTU (July 2017 - June 2021)

- Graduated with 84%
